

INSTALLATION INSTRUCTIONS 7520C

Use with Tuff Stuff alternators 7290, 7860, 7861, 7866, 7935, 8112 and 8173.

TERMINAL ID	WIRE COLOR	CONNECTION
S	Red	Battery +; connects directly to positive battery terminal, always on
F	Brown	Switched ignition; connects to ignition switch terminal that is positive when the ignition switch is turned 'On'
L	Brown	Charge light; connects to the charge light. Note that it only works with a resistor style charge light
P	Gray	Wire not used
