

SAGINAW POWER STEERING PUMP DIMENSIONS ALL EXCEPT 6179A AND 6179B

Tuff Stuff Saginaw style power steering pumps are available in two designs, the newer 'Teardrop' and the older 'Banjo' design in either chrome plated, black or powder coated colors. Both pumps feature 100% new components and most have a 1200 PSI pressure rating @ 3 GPM. An optional 850 PSI pressure valve that flows 2 GPM is available separately.

Pumps have either a 5/8" keyed shaft or a 3/4" press fit shaft. Press-fit shafts have a 3/8"-16 tapped center shaft. Specific pumps include an AN-6 adapter fitting which is also available separately. A new brass fitting which permits the use of OE style pressure hose is also available.
