HYDRO-BOOST

POWER STEERING PUMPS FOR OEM & CUSTOM BUILDS

**6162A
Chrome**

**6162B
Stealth Black**

- Saginaw style pump is a perfect replacement for dented or leaking factory pumps
- Pumps will also work on any custom built project equipped with Hydro-Boost brake system
- 3/4" Press-fit shaft for use with press-on pulley - not included - use Tuff Stuff #8485 or #8486
- Factory 5/8"-18 inverted flare pressure port and two 3/8" OD return tubes
- Includes two 3/8"-16 mounting studs and two reservoir bolts
- 1200 PSI pump pressure, 3GPM flow, optional 850 PSI valve available
- Fits 1996-2013 GM trucks with Hydro-Boost brakes - see website for application information
- Includes billet chrome cap & dipstick - for best results, use Tuff Stuff #5559 power steering pump filter
