

ALUMINUM WATER PUMPS

for Pontiac

NEW!

- Premium quality aluminum casting is nearly 60% lighter than cast iron pumps
- Aluminum casting dissipates heat faster than cast iron for improved cooling
- Available in chrome plated, polished aluminum, black powder coated or as cast finishes
- Ideal for high performance muscle cars, street rods and customs

- Nickel plated non-corroding low cavitation SuperCool impeller increases water flow by 30% to drop coolant temperatures by up to 20 degrees
- Heavy duty ball/roller bearings, center shaft, seals and spin balanced fan hub sustains high RPM engines
- Made in USA from 100% new components

Includes water pump gasket

*Quality made in
