

# Tuff Mudder

by Tuff Stuff Performance

**NEW!**

## 175 OR 250 AMPS!

7514C

7513G

7516B

**TUFF MUDDER ALTERNATORS PROVIDE FAR MORE AMPERAGE THAN STOCK!**  
 175 amp alternator puts out 135 amps at idle  
 250 amp alternator puts out 211 amps at idle

- Direct-fit with OEM wiring harness
- Dual plate rectifiers with 12 diodes and twin internal cooling fans
- Hairpin style stator - 6 phase, square wire - provides maximum amperage output
- Tuff Stuff exclusive Forever finish coating - dirt and grime wipes right off and unit won't corrode

---

Obviously add-on accessories will overwhelm OEM 140-160 amp alternators, not to mention the draw from OE accessories like wipers, heated seats, power windows, heater blower motor, and miscellaneous interior/exterior bulbs.
