

SuperCool High Flow THERMOSTATS

Ideal for high performance muscle cars, street rods and customs

- Stainless steel construction with an extra-large center port assures increased coolant flow
- Incorporates a bypass valve that allows a small amount of coolant to circulate before fully opening, assuring a fast warmup
- These thermostats flow up to 56 gallons per minute - as compared to ordinary thermostats that flow 37 gallons per minute - to keep the engine cool under all driving conditions
- Individually clam shell packaged
