

TYPE II POWER STEERING PUMPS WITH RESERVOIR

Available in chrome plated, polished aluminum, black powder coat or as cast finishes

- Compact size aluminum pumps are ideal for tight installations.
- 1200 PSI rating, 3 GPM. Optional 850 PSI rating, 2GPM valve sold separately.
- Pumps have a 0.665" shaft and requires a press-on pulley, not included.
- Top pressure port, 8mm thru hole mounting, clockwise rotation only, 3/8" OD return tube.
- Tuff Stuff power steering pumps are quality built in USA from 100% new components, are tested to far exceed OEM specifications and carry a one-year limited warranty.
